

## Apple “App” Expert Angelo Koutsogiannis Joins MWAI

**Scottsdale, AZ. – January 18, 2012** – MWA Intelligence, Inc. (MWAI), a leader in enterprise-class M2M (machine to machine) and M2P (machine to people) solutions and services, has appointed Angelo Koutsogiannis as their lead developer for iPhone and iPad. In his new role, Angelo will direct all development of MWAI’s powerful new apps for Apple IOS on mobile devices

Angelo brings over 17 years of programming experience to MWAI. While attending the University of Illinois at Urbana-Champaign Angelo worked as a researcher for the National Center for Supercomputing Applications (N.C.S.A), following college, Angelo worked as a programmer for IBM Global Services. Angelo has also managed high visibility applications and projects as a project manager for the French based technology company Capgemini. Angelo holds a Bachelor's degree in Computational Mathematical Science with a concentration in Cryptography and is working towards a Masters in Software Engineering from Arizona State University. A prolific App developer, Angelo specializes in iPhone/iPad programming and has over 45 applications available in the AppStore today with over 100 overall release submissions.

“ I am thrilled Angelo has joined the MWAI team as he brings not only tremendous engineering skills but a great set of leadership/managerial experience and his positive personality is what MWAI is all about. With the explosion of the Smartphone and Tablet markets, MWAI is committed to producing the best mobile productivity apps in the market.” said Mike Stramaglio, President and CEO of MWA Intelligence. “The addition of Angelo to the MWAI team ensures that we will continue to produce leading edge applications for our mobile solutions, driving productivity, innovation, security and cost efficiency.” Koutsogiannis goes on to add, “as an avid Mac/Apple enthusiast, MWAI is a great environment for creating the best Apple apps for our customers, it is clear that MWAI is extremely innovative in their approach to the market; they clearly understand the importance of mobility and the apps that drive productivity in the mobile workforce and I am excited about my ability to contribute to MWAI in a big way.”
