

Lee Mark Accepts Position as IT Director

Scottsdale, AZ. –February 1, 2011 – MWA Intelligence, Inc. (MWAi), a leader in enterprise-class M2M (machine to machine) and M2P (machine to people) solutions and services, today announced that Lee Mark will assume the new Director of IT position.

Lee first joined MWAi as a Client Services Representative, responsible for supporting customer issues and internal IT support. Recently, Lee has been promoted to the Director of IT and is now be responsible for internal IT support, server maintenance, and IT planning and development.

Lee received his bachelor's degree from Assumption University and his master's degree from the Keller Graduate School of Management. Prior to working at MWAi, Lee worked as an IT Manager at Parts Unlimited and Elite Communities. He also gained experience while he was at Ikon as a Network Administrator. While working for Ikon, Lee was promoted to Senior Support Engineer while he was there.

“We are excited to have Lee as the Director of IT,” said Mike Stramaglio, President and CEO of MWAi. “He is a great asset to MWAi and has grown a lot in the past two years that he has been with us. I am excited to see what Lee will accomplish in his new position and to watch him as he furthers his progress in his career.”

MWAi is working on an aggressive IT infrastructure that will better serve our customers. Promoting Lee to the Director of IT is part of this elaborate plan , which will hasten this process and better enable MWAi to provide world-class service. MWAi will continue to make process and personal changes in order to better serve our customers in a quick and efficient way.

About MWA Intelligence, Inc.

MWA Intelligence, Inc. (MWAi) provides cutting-edge M2M (machine-to-machine) and M2P (machine-to-people) solutions and tools that support the exchange of real-time information. MWAi combines OEM relationships, technological innovation, and years of industry experience to meet and exceed all MPS (Managed Print Services) needs.

MWAi manages and monitors locally and network connected imaging devices, automates meters directly to ERP, and bridges communication from machine to service technician –encouraging dealerships to embrace the Hybrid dealer concept. Solutions include: Intelligent Workforce (mobile field service management) Intelligent Service (dispatch automation, ERP/CRM integration), and Intelligent Assets (automated meter reading, remote asset diagnostics and management) and more.
