

MWA Intelligence and Driveve Creates Exciting Partnership!

Integrating image/document management solution into service automation, call avoidance improvement

Scottsdale, AZ. – August 3, 2010 – MWA Intelligence, Inc. (MWAi), a leader in enterprise-class M2M (machine-to-machine) and M2P (machine-to-people) solutions and services, today announced the company has come to an agreement on a strategic partnership with Driveve, LLC, an industry leader in business optimization solutions.

With this partnership, Driveve and MWAi will work together to synergize mutual business expertise, competencies and solutions in the areas of document management, digital collaboration, print management, managed print services and remote device and service management business opportunities with mutual customer bases.

“Our main objective in leveraging this new partnership is to help mutual customers reduce costs of service and improve their bottom line with a simple and easy to use solution,” said Michael T. Stramaglio, President and CEO, MWA Intelligence, Inc. “MWAi will continue to lead the industry with unique and advanced solutions by partnering with companies like Driveve.”

“We have a great concept and great products already in place to leverage obvious synergies between Driveve and MWAi,” says Michael Greco, CEO of Driveve, LLC. “Together we can improve service efficiencies and productiveness creating instant return on investment for our customers while still promoting green initiatives.”
